

Tab 3

Infrastructure Narrative

In January 2000, the community planning groups for TDH Regions 4/5N and 6/5S merged into the East Texas CPG. A task force of members from both Community Planning Groups developed a structure for the new planning area prior to the actual merge. The new structure included an Assembly of voting members and several work groups. The Assembly membership was composed of the officers (TDH Designated Co-chair, Community Elected Co-chair, Community Co-chair Elect, and Secretary), work group chairs and one additional member of each work group.

The work groups formed were:

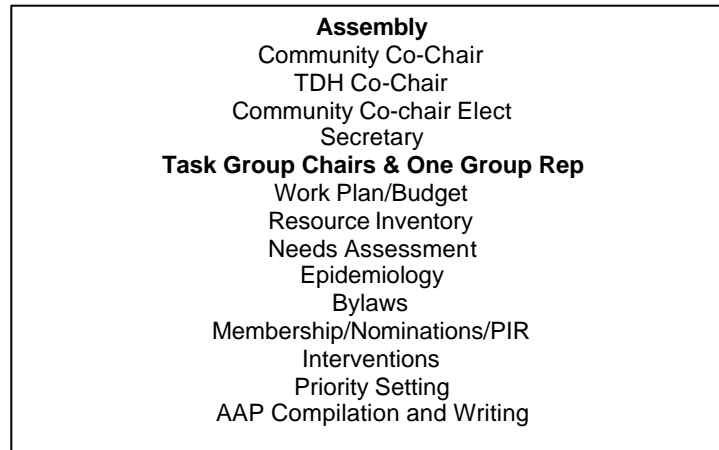

- Area Action Plan Compilation and Writing
- Interventions
- Needs Assessment & Epidemiology
- Priority Setting
- Resource Inventory

Core tasks of the CPG process that were reserved for the Assembly as a whole included:

- Bylaws
- Membership/PIR/Nominations
- Workplan & Budget

A schematic of the infrastructure follows on the next page.
